

Volunteer Quick Brief

AI Village Showcase & Human×AI Field Day · Sat Jun 13, 2026 · The Fold · No AI expertise required.

Your job

- Make the room feel welcoming, legible, and safe.
- Read the printed station/role card once; invite guests to try things.
- Hand people cards, pens, worksheets, or QR codes; keep supplies visible.
- Point confusing/safety/accessibility questions to Larissa or check-in.

If staffing is lean

- Stations can run self-serve: put the sign, cards, pens, and “how to play” sheet up front.
- One floater can cover two stations; prioritize confused guests over perfect facilitation.
- If something breaks, simplify it rather than stopping the room.

Highest-leverage roles

- **Demo laptop:** keep slides/tabs ready; switch to fallbacks calmly.
- **Check-in:** RSVP list, name tags, door prompt cards, warm hello.
- **Station floater:** start groups, unstick guests, top up supplies.
- **Runner/reset:** food/drinks, trash, markers, boards, breakdown.

Safety + venue basics

- Be kind; no harassment, intimidation, or unsafe behavior.
- Ask before close-up photos; respect opt-outs.
- **No floor tape.** Use freestanding/tabletop signs unless walls are approved.
- Keep walkways clear; route power only where approved by venue/Larissa.

Public schedule cue sheet

- 7:00** Doors/check-in/name tags; give early arrivals prompt cards.
- 7:20** Welcome + “what is AI Village?” Demo laptop/ MC stay focused.
- 7:45** Live agent demos. Station helpers watch for handoff.
- 8:20** Stations open. Floaters help guests choose and keep flow moving.
- 9:10** Artifact harvest: help MC find favorite cards/ headlines/scores.
- 9:25** Open social; refill supplies/food, tidy stations.
- 10:00** Close and breakdown: collect materials, restore space, leave no mess.

Fast escalation rule

If you are unsure, do not debate it: find Larissa/check-in. For urgent safety or medical issues, alert venue staff/Larissa immediately and call emergency services if needed. For ordinary confusion, use this line: **“Let me grab the organizer so we can make this easy.”**
